

# AVIATION DATA SCIENCE SEMINAR

SPRING 2020 (Jan 22-May 6, 2020)

WEDNESDAY 11AM-12PM

OPEN TO THE PUBLIC

As the number of air vehicles grows exponentially with unmanned aerial systems and the amount of data grows exponentially in civil aviation, the future holds more promise for a greater impact from advanced tools and techniques in data science and AI. Learn from experts in government, industry, and academia in this 12-seminar series, sponsored by USRA and UC Berkeley with NASA's Ames Research Center!

This event will be a webinar and link will be provided.
